## Jolly Old Chums on To-morrow Evening.

"Jolly Old Chums" is a corking good show. It has always been and ever will be as long as it exists under its present management. It is coming to the Opera House on to-morrow evening, with a record of business that will far exceed any of its previous seasons, which have always been very large. It may be wondered why such success has favored this popular play the present season, but a slight reflection betrays the reason. Like most plays of its character, it would naturally have succumbed at its present age, had it not had the very best of management. As it is, it is more popular to day than ever. The public are confident. They know that the announcement means a good show. They actually know this, and that is the best reason why the piece is breaking all previous records.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have as best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
